- 1) That traffic will be maintained at all times, unless permission is granted by the County Engineer to close the road.
- 2) That disturbance to road surface and shoulders will be kept at a minimum and that trenches will be backfilled with gravel and tamped, so that settlement of the material will be minimized. If settlement does occur, additional suitable material will be put into place and compacted.

- 4) That lights, signs, barricades and, if necessary, flagmen and watchmen, will be placed on the job for the protection of traffic at all times, day and night, during the time this work is being done and that instructions, given by the County Engineer's Department, as to handling of the traffic, will be fully complied with.

- 5) That I/We assume responsibility for protection of County owned water and sanitary sewage facilities within the road, and shall fully compensate the county for the repair or replacement of any such facilities damaged as a result of this work. - 6) Concrete drive construction shall not extend beyond the right-of-way or a minimum of five (5) feet from the edge of Item 448 pavement.
- 7) That responsibility under this permit will remain in force until a release has been granted by the County Engineer.
- 8) That I/We assume the responsibility for and will save the County harmless from any and all claims for personal injuries and property damages, and shall defend any action that might be brought due to this work.
